

SUMMARY

Full Stack Software Engineer with 4 years of experience in developing high-impact web applications that drive business growth. Led the development of 5 applications in current organization, driving a 33% revenue increase through scalable and impactful solutions. Proficient in modern technologies like React, Next.js, and Node.js, with a strong focus on performance optimization, reusable component architecture, and enhancing user experiences.

EXPERIENCE

- Delhivery** Gurugram
Software Engineer July 2023 - Present
 - Led the development of 5 applications in collaboration with team members, contributing to a **33% revenue** increase by delivering scalable and impactful solutions tailored to client needs.
 - Developed and maintained a UI component library used across 30+ applications, standardizing design and reducing development time by 40%.
 - Implemented 30+ features across 13 applications, including server-sent events (**SSE**) for real-time updates and an analytics dashboard powered by **AWS QuickSight**, enhancing decision-making and user engagement.
 - Facilitated code reviews and offered mentorship to junior developers, resulting in significant improvements in code quality metrics and a decrease in software defects.
- Uolo EdTech Pvt. Ltd.** Gurugram
Software Development Engineer II November 2022 - March 2023
 - Developed the Code Garage module, contributing to a approximately 30% increase in student engagement, user-generated content, and revenue generation.
 - Developed custom React components reducing development time significantly and optimizing team productivity.
- Nawvel** New Delhi
Full Stack Software Engineer April 2021 - November 2022
 - Engineered a responsive and cross-browser compatible UI component library using **ReactJS** and **TypeScript**, resulting in a significant monthly development time reduction.
 - Developed a responsive user interface leveraging **Next.js** and TypeScript, integrating server-side rendering to enhance website load times by approximately 40% and ensure optimal user experience.
 - Developed a high-performance RESTful API using **NestJS** and **MongoDB**, significantly reducing server response time through optimization techniques.
 - Deployed frontend and backend components to AWS, enhancing application reliability and scalability.
 - Implemented cost optimization strategies, reducing deployment costs by 70%.

FREELANCE PROJECTS

- JavaScript Simplified:** Developed a course sales page for Kyle Cook, a prominent YouTuber with 1.55 million subscribers, aimed at enhancing user engagement and facilitating course enrollment.
- Maility:** Refactored Firebase cloud functions to improve performance and developed unit tests to improve code reliability and facilitate future developments.

PROGRAMMING SKILLS

- Languages:** TypeScript, JavaScript, Python, C.
- Technologies:** Next.js, React, Redux, Node.js, GraphQL, MongoDB, AWS, Docker.

EDUCATION

- Jamia Millia Islamia** New Delhi
Bachelor of Technology; GPA: 8.99/10 August 2017 - July 2021
